Opening Doors to Possibility

We are at a pivotal moment for housing in New York.

For decades, affordable homeownership has felt increasingly out of reach for working families. Today, we have a chance to change that. Across New York City and Westchester, there is growing momentum around the policies, partnerships, and innovative housing models that can help more families build stability, equity, and opportunity through homeownership.

At Habitat for Humanity New York City and Westchester County, we are helping turn that momentum into lasting impact. We are building and preserving homes, helping tenants become owners, advancing policy solutions, and creating pathways to affordable homeownership that strengthen families and communities for generations. The opportunities before us today are unlike any we have seen before – and we are determined to seize them.

This year, we invite you to join us in *Opening Doors to Possibility*. Together, we can build on this moment, expand what is possible for working families, and ensure that more New Yorkers have the opportunity not only to remain in the communities they love, but to thrive in them.

To become a 2026 Habitat House Party sponsor and discuss how you can advance our mission along with your individual or company's goals, please contact Chris Meola at cmeola@habitatnycwc.org.

We can create bespoke sponsorship packages that integrate the House Party with additional opportunities for support and recognition throughout the year.

“

Once we moved into our home, something shifted in my son. He became more confident, more focused, more himself. There was a sense of peace that we hadn't had before. He finally had a place where he could just be himself, without worrying about what was going to happen next or where we might have to go. And I felt it too!

”
